Private Equity
Monitor

2022

L'Osservatorio Private Equity Monitor – PEM[®]

Il Private Equity Monitor – PEM[®] è un Osservatorio attivo dal 2000 presso la LIUC Business School, grazie al contributo di Deloitte, Di Luccia & Partners Executive Search, Fondo Italiano d'Investimento SGR, McDermott Will&Emery e Value Italy SGR.

L'Osservatorio sviluppa da oltre venti anni un'attività di monitoraggio permanente sugli investimenti in capitale di rischio realizzati nel nostro Paese, al fine di offrire ad operatori, analisti, studiosi e referenti istituzionali, informazioni utili per lo svolgimento delle relative attività e si è affermato quale primaria fonte informativa nel settore.

In particolar modo, il Private Equity Monitor – PEM[®] focalizza la propria attività di ricerca sul segmento “later stage”, monitorando le operazioni di Expansion, Buy out, Infrastructure, Replacement e Turnaround.

L'attività di ricerca nel corso degli anni ha portato alla costruzione di un database oggi costituito da oltre 3.500 operazioni di investimento realizzate a partire dal 1998.

Il Private Equity Monitor Index *PEM-i* è l'indicatore proprietario dell'Osservatorio. Calcolato su base trimestrale a partire dal primo trimestre 2003 (Base 100), fornisce un'indicazione puntuale e tempestiva sullo stato di salute del mercato italiano del private equity, rappresentando il primo indicatore di questa tipologia calcolato nel nostro Paese.

Annualmente, l'Osservatorio pubblica un rapporto di ricerca sul mercato italiano, presentato nell'ambito di un evento che vede un'ampia partecipazione della community del private equity nazionale.

Private Equity Monitor – PEM[®] Observatory

The Private Equity Monitor - PEM[®] is an Observatory active since 2000 inside LIUC Business School, thanks to the contribution of Deloitte, Di Luccia & Partners Executive Search, Fondo Italiano d'Investimento SGR, McDermott Will & Emery and Value Italy SGR.

For more than twenty years, the Observatory has been developing a permanent monitoring activity on risk capital investments realized in our country, in order to offer operators, analysts, scholars and institutional contacts, useful information to carry out their activities and it has established itself as a primary source of information in this industry.

In particular, Private Equity Monitor - PEM[®] focuses its research activity on the “later stage” segment, monitoring Expansion, Buy out, Infrastructure, Replacement and Turnaround deals.

The research activity over the years has led to the construction of a database now made up of over 3,500 investment transactions carried out since 1998.

Private Equity Monitor Index *PEM-i* is the proprietary indicator of the Observatory. Calculated on a quarterly basis starting from the first quarter of 2003 (Basis 100), it provides a timely indication about the state of health of the Italian private equity market, representing the first indicator calculated in our country with this kind of structure.

Yearly, the Observatory publishes a research report about the Italian market, presented as part of an event which sees a wide participation of the national private equity community.

Lo studio si compone di due sezioni, una prima di inquadramento e descrizione del mercato a livello aggregato, la seconda costituita dalla griglia delle operazioni mappate nel corso dell'anno di riferimento. Dallo scorso anno, il rapporto si è arricchito, con riferimento ad entrambe le sezioni, di un approfondimento relativo all'attività del private equity italiano all'estero, sia attraverso la ricognizione delle operazioni concluse all'estero da operatori di private equity italiani, nonché attraverso la mappatura delle acquisizioni di target estere realizzate da imprese italiane, con la "regia" di un operatore in capitale di rischio.

L'Osservatorio realizza comunicati stampa a cadenza mensile, finalizzati ad illustrare l'andamento del mercato, mantenendo ogni tre mesi l'uscita dell'indice proprietario *PEM-i*.

Sono stati avviati, inoltre, a partire dal 2021 i «PEM Talks», webinar trimestrali strutturati come "tavola rotonda", focalizzati sulle tematiche di più stretta attualità del settore.

È stata istituita lo scorso anno, da ultimo, la «Newsletter PEM», diffusa a tutta la community allargata del private equity italiano, così da garantire un network sempre crescente all'Osservatorio.

Con l'edizione 2022, il Rapporto Private Equity Monitor – PEM[®] giunge alla sua ventitreesima pubblicazione.

The research study consists of two sections, the first one of framing and description of the market at an aggregate level, the second one consisting of the grid with the transactions mapped during the year. Starting from the last year, the report has been enriched, with reference to both sections, by an in-depth analysis of the activity of Italian private equity abroad, both through the recognition of transactions completed abroad by Italian private equity investors, as well as through the mapping of the acquisitions of foreign targets made by Italian companies, under the "direction" of a risk capital player.

The Observatory produces press releases on a monthly basis, aimed at illustrating market trends, maintaining the communication about the proprietary *PEM-i* index every three months.

In addition, «PEM Talks», quarterly webinars structured as a "round table", were launched in 2021, focusing on the most topical issues in the industry.

Last year, also «PEM Newsletter» was launched, disseminated to the entire extended community of private equity in Italy, so as to ensure an ever-growing network for the Observatory.

This report is the twenty-third edition of Private Equity Monitor – PEM[®].

La Metodologia

L'obiettivo del rapporto è quello di fornire una serie strutturata di informazioni riguardanti le caratteristiche dei deal, degli operatori coinvolti e delle aziende target, attraverso l'uso esclusivo di informazioni pubbliche reperibili presso archivi di giornali e riviste specializzate, pubblicazioni di settore, siti Internet, banche dati accessibili al pubblico, newsletter, presentazioni a convegni, nonché la collaborazione volontaria e diretta da parte degli operatori, nel pieno rispetto dei diritti di privacy degli stessi e delle aziende target.

Lo studio prende in considerazione soltanto i nuovi investimenti realizzati da investitori istituzionali nel capitale di rischio di matrice privata, in tutte le fasi successive a quelle di avvio di impresa, risultando pertanto esclusi dalla rilevazione:

- ✓ gli investimenti effettuati da società di investimento di matrice pubblica o para-pubblica (agenzie pubbliche, finanziarie regionali, ...), tranne nel caso di veicolo societario dedicato ed autonomo;
- ✓ gli investimenti di seed e start up, cioè finalizzati alla nascita di nuove attività imprenditoriali;
- ✓ i reinvestimenti in società già partecipate dall'operatore indicato (follow on).

The Methodology

The aim of this research is to provide structured information about features of transactions, private equity houses involved and target companies. Only publicly available information has been used, including newspapers, specialised magazines and industry publication archives. Additionally, some information comes from internet websites, public databases, newsletters, event presentations and direct voluntary contributions from investors and target companies, all in compliance with privacy rights.

This research only considers initial rounds of investments undertaken by no state-related private equity houses and investments in companies which are not in the start-up phase.

Hence, our study excludes the following:

- ✓ deals undertaken by government institutions and regional government agencies, except for dedicated corporate vehicles;
- ✓ seed and start-up deals;
- ✓ second-round financing deals.

Per ogni operazione individuata, le informazioni acquisite sono state suddivise tra:

a) Caratteristiche del deal, nell'ambito delle quali si è distinto tra:

- ✓ il nome dell'impresa target, cioè l'impresa oggetto di investimento. Nel caso di operazioni di Buy out, si è cercato di indicare il nome della newco o della target che rendesse più facilmente riconoscibile l'operazione esaminata;
- ✓ nel caso di operazione di add-on, il nome della platform company, ovvero l'impresa in portafoglio all'operatore di private equity che realizza la strategia di crescita per linee esterne tramite deals di M&A;
- ✓ il principale investitore istituzionale o lead investor, che rappresenta l'operatore che ha investito la quota maggiore di capitale o che ha promosso il sindacato di investitori coinvolti nel deal;
- ✓ l'ammontare di equity investito e la quota di capitale direttamente o indirettamente acquisita;
- ✓ gli eventuali coinvestitori, ovvero tutti gli altri investitori di matrice finanziaria istituzionale che sono stati coinvolti nell'operazione, con separata indicazione dell'ammontare di equity da questi investito e la relativa quota acquisita, laddove disponibile;
- ✓ la tipologia dell'operazione, distinguendo tra le categorie di Expansion, Replacement, Buy out, Infrastructure e Turnaround;
- ✓ l'origine del deal, ossia la ragione in base alla quale è stata realizzata l'operazione, codificando tali informazioni attraverso le categorie riconosciute a livello internazionale e utilizzate per simili ricerche.

For each identified, the information is classified as follows:

a) Deal characteristics:

- ✓ target name represents the company identified for the investment. In Buy out deals, the newco or target names are presented to better identify the related investment;
- ✓ in the case of an add-on transaction, platform company name, the company in the portfolio of the private equity investor which implements a growth strategy for external lines through M&A deals;
- ✓ lead investor represents the investor with the highest proportion of share capital or the one that has led the investment syndicate;
- ✓ the amount of equity invested and the stake acquired (either directly or indirectly);
- ✓ the co-investors (if any) who took part in the deal, the amount and the percentage of equity interest acquired;
- ✓ investment stage classified as Expansion, Replacement, Buy out or Turnaround;
- ✓ deal origin or the reason and basis on which the deal was set up. Deal origin information is classified consistently with the categories used in other similar international surveys.

b) Caratteristiche dell'impresa target, nell'ambito delle quali si è distinto tra:

- ✓ la localizzazione geografica, con riferimento alla regione in cui la target ha la sua sede;
- ✓ il settore industriale, codificato secondo la classificazione PEM® sviluppata sulla base di quella internazionale proposta dalla Standard Industrial Classification (SIC);
- ✓ la descrizione di dettaglio dell'attività svolta;
- ✓ il numero dei dipendenti;
- ✓ il fatturato (Sales), individuato come ammontare dei “ricavi netti di vendita”, per il quale è stato calcolato anche il tasso di crescita annuo composto (Compound Annual Growth Rate, CAGR) per i tre esercizi precedenti al deal;
- ✓ l'EBITDA (Earnings Before Interest Tax Depreciation and Amortization), margine operativo lordo;
- ✓ l'EBIT (Earnings Before Interest and Tax), reddito operativo;
- ✓ il rapporto EBITDA/Fatturato;
- ✓ l'Enterprise Value (EV), determinato considerando il valore attribuito al 100% dell'azienda al momento immediatamente precedente all'acquisizione;
- ✓ i multipli: EV/Sales, EV/EBITDA.

b) Target company characteristics:

- ✓ geographical area represents the Italian region where the target company is located;
- ✓ industry sector in accordance with the PEM® classification based on the Standard Industrial Classification (SIC Code);
- ✓ detailed activity description;
- ✓ number of employees;
- ✓ sales refers to “net sales” and sales for three years prior to the investment on the basis of the Compounded Annual Growth Rate (CAGR) calculation;
- ✓ EBITDA (Earnings Before Interest, Tax, Depreciation and Amortization);
- ✓ EBIT (Earnings Before Interest and Tax);
- ✓ EBITDA/Sales ratio;
- ✓ Enterprise Value (EV) defined as the value assigned to the entire target company, prior to the acquisition;
- ✓ multiples: EV/Sales, EV/EBITDA.

I PRINCIPALI RISULTATI

- ✓ **441 operazioni** complessive (+14% rispetto alle 387 del 2021), nuovo dato record nella storia dell'Osservatorio PEM
- ✓ Tutte le categorie di operazioni si confermano in valori assoluti, i Buy out evidenziano anche una importante crescita in termini di quota di mercato (80% vs 73% nel 2021), anche grazie alla sempre più nutrita presenza di add-on
- ✓ **241 operatori attivi**, due in più rispetto al 2021, con 15 di essi che si affacciano per la prima volta sul mercato italiano
- ✓ Gli **operatori internazionali** rappresentano il **51%** dell'attività complessiva, in linea rispetto all'ultimo triennio
- ✓ Il **77%** delle operazioni è riconducibile ad operatori di private equity tradizionali, il restante **23%** alle altre categorie di players attivi sul mercato del capitale di rischio, in particolare le holding (12%)
- ✓ Tra gli **operatori più attivi**, il podio nel 2022 vede al primo posto H.I.G. Capital (17 deals), seguito da Vam Investments (14) e White Bridge Investments (11)
- ✓ **210** operazioni di **add-on**, finalizzate a processi di aggregazione industriale, in aumento del **45%** rispetto al 2021
- ✓ Le **imprese private e familiari**, in leggero aumento (68% vs 66% nel 2021), continuano a rappresentare larga parte delle opportunità di investimento, seguite da **Secondary Buy out** (10%) e dismissioni di rami aziendali domestici (9%)

HIGHLIGHTS

- ✓ **441 deals** (+14% in comparison to 387 in 2021), new record figure in the history of PEM Observatory
- ✓ All categories of transactions remain stable in absolute values, Buy out deals also show a significant growth in terms of market share (80% vs 73% in 2021), also thanks to the increasingly large presence of add-on operations
- ✓ **241 active investors**, two more than in 2021, 15 of them entering the Italian market for the first time
- ✓ **International players** represent **51%** of the whole activity, showing stability in comparison to the last three years
- ✓ **77%** of the transactions is attributable to traditional private equity players, the remaining **23%** to other categories of investors active in the risk capital market, in particular holding companies (12%)
- ✓ With reference to the **most active investors**, the podium in 2022 sees as first H.I.G. Capital (17 deals), followed by Vam Investments (14) and White Bridge Investments (11)
- ✓ **210 add-on** operations, aimed at industrial aggregation processes, increasing **45%** compared to 2021
- ✓ **Private and family business**, showing a slight increase (68% vs 66% in 2021), continues to represent the greatest part of investment opportunities, followed by **Secondary Buy out** (10%) and the **disposal of a domestic business** (9%)

- ✓ **Lombardia, Veneto ed Emilia Romagna** (58% dell'intero mercato) si confermano sul podio per quanto concerne la geografia del mercato, un buon contributo giunge da Toscana, Piemonte e Lazio
- ✓ **Prodotti per l'industria e beni di consumo** rimangono i settori con maggiore frequenza, ma il mercato evidenzia con chiarezza una graduale traslazione di interesse verso le filiere strategiche per il futuro, con particolare riferimento alla **digitalizzazione** ed alla **transizione ecologica**, pur senza abbandonare comparti storicamente rilevanti per l'industria, quali il **terziario** e l'**alimentare**
- ✓ **87%** degli investimenti è indirizzato verso imprese che non superano un fatturato di **60 milioni di Euro**, ma non mancano interventi anche in aziende di grandi dimensioni, in particolare nella fascia 101-300 milioni di Euro. Il peso crescente, all'interno del mercato, delle operazioni di add-on spinge verso una **dimensione media inferiore delle target**, rispetto al passato
- ✓ Le **platform company** protagoniste nell'ambito delle strategie di crescita per linee esterne presentano dimensioni piuttosto variegate, spaziando da imprese con fatturato inferiore ai **60 milioni di Euro (45%)** a società con oltre **100 milioni di Euro** di revenues (**38%**)
- ✓ Cresce il **multiplo mediano EV/EBITDA**, che si attesta a **12,0x** rispetto al 10,3x del 2021
- ✓ Il **Private Equity Monitor Index PEM-i** segnala livelli di attività mai registrati nel passato, confermati dalla presenza nel 2022 dei due valori trimestrali più alti nella storia dell'Osservatorio (mediamente **110,25** operazioni a trimestre, con intensità massima nel quarto trimestre a 132 deals conclusi)
- ✓ **Lombardia, Veneto and Emilia Romagna** (58% of the whole market) confirm themselves on the geographical podium, a good contribution comes from Toscana, Piemonte and Lazio
- ✓ **Industrial products and consumer goods** remain the most frequent sectors, but the market clearly shows a gradual shift of interest towards strategic industries for the future, with particular reference to **digital and ecological transition**, without neglecting historically relevant sectors for the Italian private equity industry, such as **professional and social services** and **food and beverage**
- ✓ **87%** of investments is aimed at companies which don't exceed a turnover of **60 million Euro**, but there is no lack of interventions also in large companies, in particular in the range 101-300 million Euro. The growing weight, within the market, of add-on deals pushes towards a **lower average size of target companies**, in comparison to what happened in the past
- ✓ **Platform companies** which are protagonists of add-on strategies have quite varied dimensions, ranging from companies with a turnover lower than **60 million Euro (45%)** to firms with over **100 million Euro** in terms of revenues (**38%**)
- ✓ The **median EV/EBITDA multiple** is growing, standing at **12.0x** compared to 10.3x in 2021
- ✓ The **Private Equity Monitor Index PEM-i** reports levels of activity never recorded in the past, confirmed by the presence in 2022 of the two highest quarterly values in the history of the Observatory (on average, **110.25** transactions in each quarter, showing the greatest intensity in the fourth quarter with 132 completed deals)

PEM INTERNATIONAL: IL PRIVATE EQUITY ITALIANO ALL'ESTERO

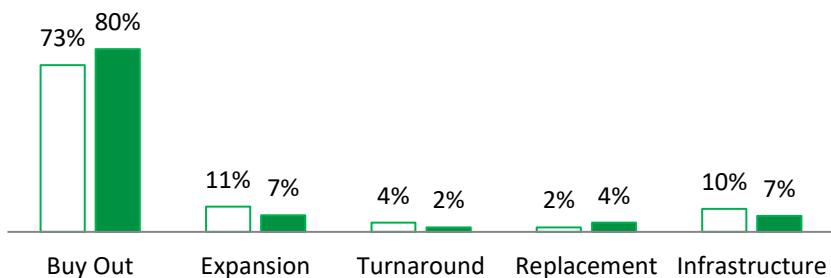

- ✓ A partire dalla scorsa edizione, si affianca alla mappatura del mercato italiano anche la ricognizione delle operazioni concluse **all'estero** da operatori di private equity italiani, nonché delle acquisizioni di target estere realizzate da imprese italiane, con la "regia" di un operatore in capitale di rischio
- ✓ Nel corso del 2022, sono stati mappati **16 investimenti diretti** (vs 7 nel 2021) all'estero condotti da operatori domestici e **40 add-on** (vs 48 nel 2021) conclusi da aziende italiane in portafoglio ad operatori di private equity
- ✓ I mercati geografici target con maggiore concentrazione sono risultati essere **Francia, Spagna e UK**
- ✓ Con riferimento ai 16 investimenti diretti all'estero realizzati da operatori di private equity italiani, le aziende target operano con maggiore frequenza nei compatti industriali relativi al **cleantech** e al **terziario**. Inoltre, da un punto di vista dimensionale, esse presentano mediamente un fatturato pari a **43,6 milioni di Euro** e **89 addetti**, in crescita rispetto al 2021
- ✓ Analizzando, invece, le operazioni di add-on condotte all'estero da aziende italiane in portafoglio ad operatori in capitale di rischio, i settori industriali maggiormente intercettati risultano essere i **prodotti per l'industria, ICT e terziario**. In ottica dimensionale, le società target evidenziano mediamente un fatturato pari a **48,1 milioni di Euro**, impiegando in media **57 addetti**, anche in questo caso in crescita rispetto allo scorso anno

PEM INTERNATIONAL: ITALIAN PRIVATE EQUITY ABROAD

- ✓ Starting from the last edition, the monitoring of the Italian market is also accompanied by the recognition of the transactions concluded **abroad** by Italian private equity players, as well as the acquisitions of foreign targets carried out by Italian companies, under the "direction" of a risk capital investor
- ✓ During 2022, **16 direct investments** abroad (vs 7 in 2021) conducted by country investors and **40 add-ons** (vs 48 in 2021) concluded by Italian companies in the portfolio of private equity players were mapped
- ✓ The geographic target markets with the highest concentration were **France, Spain and UK**
- ✓ With reference to 16 foreign direct investments made by Italian private equity investors, target companies operate more frequently in the industrial sectors relating to **cleantech** and **professional and social services**. Furthermore, from a dimensional point of view, they present an average turnover of **43.6 million Euro** and **89 employees**, showing an increase in comparison to 2021
- ✓ Analysing, instead, add-on deals completed abroad by Italian companies included in risk capital investors' portfolio, the most intercepted industrial sectors are **industrial products, ICT** and **professional and social services**. For what concerns size, target companies show an average turnover of **48.1 million Euro**, employing an average of **57 employees**, also in this case showing an increase in comparison to the last year

LIUC BS is the Business School of LIUC Università Cattaneo, which was established in 1991 by 300 entrepreneurs of the Province of Varese and Alto Milanese; the university has always had deep relationships with the business and the professional community, as well as a strong international vocation. To date, LIUC has faculties of Economics and Engineering.

The Business School presents several research centers and laboratories and also offers bachelor and master lever courses, professional trainings and custom research. In particular, Master in Merchant Banking has been launched to match the growing demand of professional consultants expressed by Merchant and Investment Banks, Private Equity and Venture Capital firms and management companies. PEM[®] is a research center focused on investing activity realized in Italian unlisted companies giving a complete view of the trends in a domestic and international industry.

Visit www.liucbs.it and www.privateequitymonitor.it for further information.

AIFI, the Italian Association of Private Equity, Venture Capital, and Private Debt, was established in May 1986 and is internationally recognized for its institutional representation and promotion of private equity, venture capital, and private debt activities in Italy.

AIFI is an association of financial institutions that, on a permanent and professional basis, make investments in unlisted companies, with an active involvement in their development, offering flexible and adaptable finance to meet the needs of individual companies. The Association also brings together an important network of institutions, institutional investors, and professionals interested in the development of the industry.

In addition to representing its members and being a point of reference for analysis and research on alternative investments, AIFI plays an important role in cultural dissemination in the field of financial markets.

Di Luccia & Partners Executive Search is specialised in responding to requests from private capital funds for senior management in their participated companies and for their investment teams. The Firm is founded on principles of professional ethics, equal respect for clients and candidates, professional and timely response to customer needs, appreciation of diversity, inclusion. We are independent and provide recommendations based on analyses as objective as possible, triangulated in the final selection phase with references and psychometric tests.

Our research methodologies reflect international best practices, on "boutique" business terms. We mainly work on "success fees".

We are a team of Senior Partners, who directly manage each research, with an integrated international geographical presence (Milan, London, Budapest, Warsaw, Rio de Janeiro) and network for widespread coverage in the six continents.

We live on the appreciation of our clients and candidates, who continuously provide new references facilitating new engagement opportunities. This is our greatest satisfaction!
